

Invitation

ROSEWOOD4.0- project organizes online Study Visit to share experience and transfer knowledge.

Online Study Visit 15th of September:

Forest Finland – Forests’ role in everything we have in Finland

The Finnish Forest Association provides information on how to use forests responsibly and reports on what is happening in Finland’s forest sector.

Forest Finland is the joint communication project of the Finnish forest sector. The campaign will awaken and raise peoples’ interest and encourage discussion about the forests’ role in everything we have in Finland. Forest Finland talks about the sustainability of the use of the northern forests and about the solutions the sustainable use of them offers. The forest will be seen on TV and heard on the radio, in outdoor advertising and in social media.
